PERSONAL PROFILE

Open-minded student with a very positive attitude. Currently finishing his studies doing double degree program: economic analysis in University of Technology in Gdansk, Poland and Global Business Engineering in VIA University College in Horsens, Denmark. After these two experiences I would like to start my professional career improving myself in business analysis, programming, creating web sites using HTML, CSS, JavaScript, testing or web engineering with ASP.NET and C#. From summer 2017 I would like to work within one of these areas and by the same time in October 2017 start part-time IT studies to improve my IT skills.

SKILLS
